#### EXAMPLE:

If there is a need to create \$700,000 (adjusted from the initial amount of \$695,000), please access this link:

[QUALIFYING MASTER CUSTOMER & AFFILIATE VEHICLES](#)

Furthermore, leveraging other people's money, assets, labor, experience, and time, we can monetize these funds into our Passive Income Funnels for you, our Private Club Member. By understanding our process, most members reallocate their own funds or acceptable assets that are not earning at least our minimum projected annual ROI of 25%, 35%, 40%, 45%, 50% or greater, into our MASTERS TRUST Bank Holding Corporate Account for safekeeping. We then leverage these funds by a factor of up to 10 times their value, reselling them to others in a "buy-sell" contract. Our firm earns a transaction fee, akin to a credit card charge, for generating new capital. (This is part of our Success Formula's Secret Sauce.)

**Prepared for Each Applicant:** <https://sixfigureclub.com/landing-pages/pitch-deck/>

Through this approach, applicants can systematically convert their passive income opportunities into measurable financial results. The Passive Income Funnels process assesses each individual's financial position, allowing for the strategic allocation of resources to the most advantageous solutions. This structured framework supports clients in fully leveraging their financial assets while offering detailed guidance to enhance growth via sound income producing strategies used by the world's top 1% income earners & producers. By utilizing existing capital, diversifying portfolios, or identifying new revenue streams, this methodology provides a tailored route to achieving long-term financial stability and success.

Regarding the request for approximately \$700,000, we will review your [TNA application](#) and provide a detailed overview of where and how the capital will be secured for you. We utilize these funds by leveraging them up to ten times their original value, which are subsequently resold to other parties through a "buysell" agreement. This process involves our consortium of over 650,000 Global Social Financial Networks of funders, lenders, and investors, as well as your TNA Financial Net Worth Statements.

The basic formula takes the required funding requested NEED dollar amount and we generate as you can qualify for the Maximum deposit-able dollars that we will have you deposit into Our Firms Secured Corporate Bank MASTERS TRUST Holding Account for a minimum 1 Year & 1 Day Period. Here we will generate Passive Income for you which can be received Quarterly up to approx. 6.25% of the balance deposited in the Bank TRUST Account. This option generates up to our projected minimum 25% ROI annually.

**Bonus:** We offer an annual return of interest (ROI) ranging from 35% to 50% for accounts with balances up to \$10,000,000 USD. Additional options are available for our annual non-depleting account holders and members.

For accounts exceeding \$10,000,000, annual bonus reward profit checks may range from 100% to 1,000%.

With a goal of \$700,000. We will determine the maximum deposit needed in passive income portfolios and the corresponding interest rates you are entitled to receive as our beneficiary.

For instance, if we obtain 50% or \$350,000 from our Providers Funding/Lending/Investor networks, and the remaining \$350,000 is sourced from our PCM Private Club Members—transferred from various investment, retirement, and tax-sheltered accounts—this would achieve our objective of securing the full \$700,000 necessary to fund your “Bucket List of Desires.”

The essential “Success Formula” is centered on the requested funding amount of \$700,000. We assess your qualifications to determine the maximum eligible deposit that can be placed in our firm's secured corporate bank trust holding account for a minimum term of one year and one day. Based on this assessment, we will calculate the optimal deposit required. This amount will be held securely and will generate passive income, distributed quarterly at an approximate rate of 6.25% of the balance in the trust account. This approach is projected to yield a minimum annual return of interest (ROI) is based on the transaction fees we receive of up to 25%. By reallocating assets from underperforming investments, the remaining 50%, or \$350,000, will secure the desired \$700,000 face value. Clients are provided with potential earning scenarios at various percentage rates—including 25%, 35%, 40%, 45%, 50% or greater —depending on the total amount deposited.

In this scenario, the client may anticipate achieving Payment In Full (PIF) Status within as little as four years, or potentially in three, two, or even one year, depending on the total amount deposited into the secure TRUST Bank Holding Account.

## REFUND POLICY

The (AAPF) application access processing fees are fully refundable if, after approval as a (PCM) Private Club member/affiliate and beneficiary, we are unable to provide a return a minimum of 10X (ten times the fee deposit amount.)

This 20% fee only partially covers the companies’ expenses, time, and resources we had to expend for the processing of your request.
